Macroeconomics

Course description.

This course presents the basic analytical tools of microeconomics. We start by looking at the decision making of individual consumers and ask how these decisions can be optimized or improved.

AE 6102 Advanced
Macroeconomic Theory
(3 AUs) This course
examines economic
theories and models
that describe the
economy as a whole.
Specific issues of
interest include output,
inflation, business
cycle, the
macroeconomic impact
of monetary and fiscal
policies, and the
tradeoff between
unemployment and
inflation.
