### Nephrology Case Studies

Brodsky et al. first reported the occurrence of acute kidney injury during warfarin therapy associated with obstructive tubular red blood cell casts and termed it warfarin-related nephropathy (WRN). The study discusses a patient in whom WRN occurred only after 12 years of uneventful warfarin therapy. This makes the case unique. But not only that ...

THE SITUATION. Nina was a rambunctious German Shepherd in the prime of her life when her parents first noticed something was wrong. At first it was just a matter of Nina not wanting to go for hikes (the highlight of her day), but within a matter of days, Nina went from rolling around in the grass to being unable to stand or walk.
