under way to better answer this important clinical question.

Cardiovascular disease patients diagnosed with COVID-19 should be fully evaluated by a healthcare professional before adding or removing any treatments, and any changes to their treatment should be based on the latest scientific evidence.

Clinical Questions about COVID-19: Questions and Answers | CDC

The first step in the evidence-based practice (EBP) process is to identify the clinical problem or question for which you are seeking evidence. Asking a focused and relevant question about your client's situation will inform your search. One widely used approach to frame a clinical question is known as PICO, which stands for

EBP Process - Step 1: Frame Your Clinical Question

Asking and answering clinical questions during daily practice can be challenging
