Emile Durkheim, The Evolution of Educational Thought ...

The Evolution of Educational Thought is Durkheim's single most ambitious and comprehensive work of historical sociological analysis. The book traces the development of French education from its origins in the early Church up through the nineteenth century, combining in one integral study an inquiry into educational philosophies, doctrines, and discourses of curriculum and pedagogy.

The Evolution of Educational Thought ()

The purpose of education has evolved over time. It also differs slightly depending on whether you take the view of society, the educator, or the parents. Parents initially used education as child-care as they moved off farms and into the industrial work environment.

The Evolution of Education — Matt Church

Also popular during the Industrial Age was the mass production model, which focuses on scoring well on exams and essentially memorizing data to repeat it at a later time.. Skinner's Behaviorism. Besides the mass production model, the popular psychology term behaviorism also came into play in the educational sector. 20 th century teacher and researcher B.F. Skinner believed in behaviorism, a ...
